# HISSYS TECHNOLOGIES

We are revolutionizing cosmetics with **photodynamic epigenetics**.

At **Hissys Technologies** we unite science and light to transform the skin at its source.

We apply advanced technology that uses photoluminescent energy to precisely and continuously activate our epigenetic active ingredients.

This allows us to:

- **Enhance the efficacy of each ingredient**
- **Prolong results over time**
- **Direct the action exactly where the skin needs it**

Our intelligent epigenetic actives are capable of reactivating cellular function, restoring their natural functions, and regenerating tissues from within.

Each treatment is adapted to the real needs of the skin, ensuring visible, personalized, and long-lasting results.

# your skin has memory, and we help it remember its best version

## How do we act?

We create an exclusive synergy of **photobiotechnological actives**, designed to penetrate precisely into the deeper layers of the skin.

These actives:

- Are activated by light (LED, laser, IPL, solar)
- Work progressively, selectively, and in a targeted way
- Reeducate cells, restoring their balance and original function

**multi-environment  
technology  
360° action**

We offer continuous and effective action thanks to photodynamic activation in different environments.

activation of actives through professional photodynamic devices (laser, IPL, LEDs, biophotonic).

continuity of the professional epigenetic treatment with specific products and devices for home use.

natural light exposure enhances the action of our photodynamic actives, boosting the daily efficacy of the treatment.

# total face treatments

Intelligent actives that regenerate the skin from its origin, fight aging, protect DNA and improve firmness, elasticity and volume.

They reduce wrinkles, puffiness and dark circles, leaving the skin brighter, firmer and more youthful.

## DEN-SITY WRINKLE FILLER

Pack of 10 single-dose vials, 5 ml.

### Restructuring, multi-corrective and redensifying active

- Reduces, fills and prevents the appearance of wrinkles and expression lines
- Improves skin structure
- Harmonizes facial contours and restores lost volume
- Stimulates collagen and elastin synthesis, essential for firm, youthful skin
- Adds volume, hydration and filling effect
- Redensifies sensitive skin

## TIME-LESS GENETIC ANTI-AGING

Pack of 10 single-dose vials, 5 ml.

### Rejuvenating, firming and illuminating active with lifting effect

- Improves skin relief and texture
- Epigenetic activator of cellular youth
- Helps preserve cellular longevity markers
- Delays cellular senescence
- Stimulates renewal of young cells

## BLI-NK PHOTODYNAMIC EYE CONTOUR

Pack of 5 single-dose vials, 5 ml.

### Intensive multi-action active for the eye contour

- Lifts eyelids and reduces expression lines
- Visibly diminishes puffiness and dark circles
- Brightens and firms the eye area
- Prevents aging and damage induced by lack of sleep
- With an action similar to ocular melatonin for a fresher, more rested look
- Regenerates and redensifies the skin thanks to cosmetic probiotics

## ANTI-WRINK PHOTODYNAMICS THREADS

Pack of 10 sachets with 12 threads

### Filling and firming threads

- Tightening effect
- Eliminates and helps prevent expression lines, improving skin density
- Fill wrinkles and marked lines
- Stimulate collagen and elastin for firmer skin

## SKIN-UP

### PHOTODYNAMIC PATCH

Pack of 5 pairs of films

#### Redensifying, filling and firming film

- Improves skin density
- Prevents and treats the formation of expression lines. Lifting effect
- Targeted delivery: actives are released directly within the skin, maximizing their action
- Ideal for professional precision treatments: perfect for delicate areas such as the eye contour, cheekbones and nasolabial folds

Fiber Boost Technology: active penetration up to 20 times higher, optimizing treatment efficacy

## TIME-LOCK

### EPIGENETIC CREAM

Airless 50 ml

#### Facial cream that reprograms cellular behavior to rejuvenate the skin from within, acting as an intelligent retinol, 12 times more effective than traditional retinol, without causing irritation, peeling or photosensitivity.

- Repairs and improves firmness, elasticity, texture and luminosity
- Stimulates cellular regeneration and type I collagen synthesis
- Intensely hydrates, reduces pores and wrinkles from the first application
- Protects against blue light and digital aging
- Skin appears visibly younger, toned and with restored volume
- Total tolerance, even on sensitive skin
- > Suitable for all skin types and ages, all year round

## TIME-LESS

### GENETIC ANTI-AGING

Dropper bottle 30 ml

#### Genetic-action booster that revitalizes and rejuvenates from within, targeting visible signs of aging.

- Redensifies the skin and fills expression lines
- Improves skin micro-relief and overall texture
- Progressively increases elasticity and firmness
- Provides an immediate lifting effect and healthy luminosity
- Reactivates cellular processes that maintain youthful, vital skin

## BLI-NK

### EPIGENETIC EYE CONTOUR

Dropper bottle 15 ml

#### Intensive multi-action booster for the eye contour.

- Lifts eyelids and reduces expression lines
- Visibly diminishes puffiness and dark circles
- Brightens and firms the eye area
- Prevents aging and damage caused by lack of sleep
- Mimics the skin's natural night-repair mechanisms for a fresher, more rested look
- Regenerates and redensifies the skin thanks to cosmetic probiotics

# depilatory treatments

Actives that enhance the efficacy of laser hair removal and IPL, including light, grey, red and residual hair. Suitable for all hair and skin types, including high phototypes. They reduce discomfort and improve skin regeneration, hydration and protection.

## CROM+ PHOTODYNAMIC ACTIVE

Dispenser 100 ml

### Total hair removal emulsion that enhances laser and IPL treatments

- Eliminates all types of hair, including light, grey, red and residual hair
- Suitable for all skin phototypes, ensuring safety and efficacy
- Enriched with actives that promote a sensation of comfort, reducing discomfort during the session
- > Suitable for all skin types

## HELP REPAIR AND PROTECT

Airless 200 ml

### Repairing and protective skin gel

- Enables hair removal on sensitive, irritated or dark skin without risk
- Prevents irritation caused by shaving, improving the skin after hair removal
- Strengthens the skin barrier, enhancing resistance
- Soothing, anti-inflammatory and healing action
- Stimulates the skin's natural repair mechanisms
- Provides prolonged and deep hydration

## REN- EW SKIN REPAIR

Airless 50 ml

### Regenerating facial cream for post-hair removal care

- Complements all hair removal methods: wax, thread, tweezers, electrolysis, laser and IPL
- Improves laser efficacy on all hair types: light, grey, red and residual
- Intensive regenerating and repairing action
- Prevents premature aging and the appearance of dark spots
- Enhances luminosity, improves texture and promotes cellular renewal
- With daily sun protection (SPF 50)

## REN- EWALL SKIN REPAIR

Airless 200 ml

### Regenerating body cream for post-hair removal care.

- Compatible with all hair removal methods: wax, thread, tweezers, electrolysis, laser and IPL
- Deeply hydrates, repairs and regenerates the skin
- Evens out skin tone and enhances luminosity
- Promotes natural cellular renewal
- With broad-spectrum sunscreen (SPF 30)
- > Suitable for all skin types

# specialized treatments

Multi-function, targeted actives that provide specific solutions for every need, regenerating, repairing and rebalancing the skin, even in sensitive conditions or after aesthetic treatments.

Spray 50 ml

## GRO-WTH HAIR RECOVERY

### Stimulating and strengthening hair lotion

- Prevents hair loss, stimulates growth and densifies hair from the root
- Inhibits the factors that trigger hair loss
- Reactivates follicles and promotes stronger, healthier growth
- Supports hair recovery after processes such as chemotherapy
- Improves density and volume
- Enhances the hair's natural color, revitalizing its appearance

Pack of 6 single-dose vials, 5 ml

## GRO-WTH PHOTODYNAMIC ACTIVE

### Regenerating hair active that stimulates growth with revitalizing and strengthening action

- Inhibits the factors that cause hair loss
- Reactivates follicles and promotes hair regeneration
- Reduces hair loss from its origin
- Visibly improves scalp density and vitality
- Supports the hair's natural pigmentation

Dispenser 200 ml

## SPUM-UP COMFORT CLEANSING FOAM

multi-action

### Gentle sulfate-free cleansing mousse

- Cares for the skin in a single step while respecting its natural balance
  - Removes impurities without altering the skin barrier
  - Soothes, hydrates and strengthens the skin from the first step
  - With regenerating and anti-inflammatory properties
  - Makeup-removing action
  - Probiotic and prebiotic action
  - Purifies without irritating or drying
- > Suitable for all skin types, including the most sensitive

Airless 200 ml + Home Care 50 ml

## HELP REPAIR AND PROTECT

multi-action

### Multi-function gel for skin regeneration and protection

- Stimulates the skin's natural repair mechanisms
  - Soothing, anti-inflammatory and healing action
  - Skin regeneration and repair after tattoo removal
  - Strengthens the barrier function, improving skin resistance
  - Provides prolonged and deep hydration
- > Suitable for all skin types, including sensitive and reactive skin
